Career Objective

Motivated and detail-oriented Computer Science undergraduate skilled in MERN stack development and problem-solving. Seeking a dynamic role to apply my full-stack web development skills and contribute to impactful projects while growing professionally.

Education

Vellore Institute of Technology, Bhopal
B.Tech in Computer Science and Engineering
2022 – 2026

Bonnie Foi Co-ed Sr. Sec. School, Bhopal
CBSE – Class 12
79%

St. Mary's Convent Sr. Sec. School, Bhopal
CBSE – Class 10
88.8%

Technical Skills

Programming Languages: C++, Java, Python, JavaScript
Web Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB
Tools & Platforms: Git, GitHub, VS Code, Postman, Netlify, Render
Databases: MongoDB, MySQL
Core Computer Science: Data Structures & Algorithms, OOP, OS, DBMS, Computer Networks

Projects

🤖 Healthlyzer – Symptom-to-Disease Chatbot
MERN Stack | NLP Integration | AI-based
Built a chatbot to identify diseases from symptoms using simple user inputs
Used React for frontend, Node.js + Express.js for backend, MongoDB for storing symptom-disease data
Integrated a basic rule-based NLP system to map symptoms to probable diseases
Deployed live using Render and Netlify

Local Lingo Live – Urdu & Roman Urdu Speech Dataset Platform

Python | Flask | Dataset Engineering

Designed a platform to collect, expand, and test speech-to-text datasets in Urdu and Roman Urdu

Categorized words into topics (occupations, festivals, health, tools, etc.) to improve linguistic coverage

Used Flask for backend API and Python for preprocessing text & audio inputs

Focused on local language NLP challenges in underrepresented datasets

EduTrack – Student Learning Dashboard

MERN Stack | Authentication | Charting Libraries

Developed a student productivity tracker app to monitor daily learning goals, tasks, and topics completed

Used JWT for user authentication and Recharts for visual progress charts

Real-time tracking and task reminder system with a focus on clean UI/UX

Features: Login/Signup, Add Topics, Visualize Progress, Reminders

Achievements & Certifications

Completed Apna College DSA Track – 200+ problems on LeetCode

MongoDB for Developers – MongoDB University

3rd place in college-level Hackathon – Disease Detection Theme

Academic Projects & Coursework

DBMS Mini Project: Online Bookstore using MySQL & PHP

Operating System Simulation: Scheduling Algorithms in C++

Networks: Simulated data transmission in OSI/TCP-IP layers

Soft Skills

Communication, Time Management, Team Collaboration, Adaptability
